Part II - Proposed revised terms of reference

The proposed terms of reference of the WHO Collaborating Centre should be presented as bullet points and briefly describe the scope of the activities that the institution would perform as a WHO Collaborating Centre. It should give a general framework

- To build capacity for community health and development globally using expanded resources of the Community Tool Box (CTB).

- With selected collaborative partners, to use participatory evaluation methods to extend the evidence base for how communities create conditions that promote health and health equity (detailed activities on file at IKM/RC).

Part III - Proposed work plan

<p>Activity</p>	<p>Title</p> <p>Responsible person</p> <p>Description</p> <p>Concrete expected outcome</p> <p>Links with WHO activities</p> <p>Source of funding of the activity</p> <p>Dissemination of the results</p> <p>Time frame of the activity</p>	<p>Develop and support implementation of a Faces, Voices and Places Workstation for PAHO</p> <p>Dr. Cesareo Fernandez</p> <p>At the request of PAHO's MDG work group (Sofialeticia Morales), the KU CC will develop and support use of a customized Internet-based Workstation to help build capacity, enhance participatory evaluation, and promote co-learning among partners in PAHO's Faces, Voices and Places initiative. The aim of this PAHO initiative is to address the Millennium Development Goals in over 30 communities in Latin America.</p> <p>Enhanced capacity building, participatory evaluation, and co-learning among community and technical partners in PAHO's Faces, Voices and Places initiative.</p> <p>Build capacity and expand the evidence base for collaborative efforts to address the MDGs and social determinants of health.</p> <p>University of Kansas.</p> <p>Regional and global dissemination through the Faces, Voices and Places Workstation and the Community Tool Box.</p> <p>2008-2012</p>
<p>Activity</p>	<p>Title</p> <p>Responsible person</p> <p>Description</p> <p>Concrete expected outcome</p> <p>Links with WHO activities</p> <p>Source of funding of the activity</p> <p>Dissemination of the results</p> <p>Time frame of the activity</p>	<p>Translation and cultural adaptation of the capacity-building resources of the Community Tool Box into Spanish</p> <p>Dr. Jerry Schultz</p> <p>The Community Tool—with its nearly 300 sections and over 7,000 pages—is the world's largest resource for supporting community efforts to promote health and development. This widely used site includes practical information on building healthy communities (e.g., community assessment, planning, evaluation, advocacy, sustainability). We have assembled a team of to translate the nearly 7,000 pages into Spanish. During this re-designation period, translation will be completed on all of the major gateways and sections.</p> <p>As a result, more Spanish-speaking people from the Americas will have access to this free Internet-based resource to build capacity for their work in promoting community health and development.</p> <p>This will support WHO activities related to information dissemination and capacity building for health promotion.</p> <p>University of Kansas; Anticipated grant from the Robert Wood Johnson Foundation.</p> <p>Global dissemination through a free public website, the Community Tool Box http://ctb.ku.edu</p> <p>2008-2010</p>

Activity	<p>Title</p> <p>Responsible person</p> <p>Description</p> <p>Concrete expected outcome</p> <p>Links with WHO activities</p> <p>Source of funding of the activity</p> <p>Dissemination of the results</p> <p>Time frame of the activity</p>	<p>Develop and support implementation of a PAHO Community Health Workstation</p> <p>Dr. Cesareo Fernandez</p> <p>At the request of PAHO's sustainable development work group (Marilyn Rice), the KU CC is developing and supporting implementation of a customized Internet-based Workstation to help build capacity, enhance participatory evaluation, and promote co-learning among WHO-PAHO Collaborating Centres in the Americas.</p> <p>Enhanced collaboration and co-learning among designated and emerging WHO Collaborating Centres in the Americas.</p> <p>To enhance collaboration among designated WHO Collaborating Centres, and with emerging collaborating centres, working on health promotion.</p> <p>University of Kansas; Pan American Health Organization</p> <p>Through an Internet-based Workstation that can be accessed by PAHO-affiliated collaborating centres working on health promotion.</p> <p>2008-2012</p>
Activity	<p>Title</p> <p>Responsible person</p> <p>Description</p> <p>Concrete expected outcome</p> <p>Links with WHO activities</p> <p>Source of funding of the activity</p> <p>Dissemination of the results</p> <p>Time frame of the activity</p>	<p>Development and implementation of a participatory evaluation template to expand the evidence base for collaborative efforts to promote health and health equity</p> <p>Dr. Stephen Fawcett</p> <p>In collaboration with PAHO and CCs in the Americas, the KU Collaborating Centre is facilitating development, field testing, and use of a new template to support participatory evaluation of health promotion efforts. The KU Centre will also help to disseminate case examples of participatory evaluation using the Community Tool Box and the PAHO Community Health Workstation. In collaboration with the American University of Beirut, the KU CC is also supporting dissemination of case studies of collaborative health efforts in several countries in the Middle East.</p> <p>Case studies of evaluations of collaborative efforts to create conditions that promote health and health equity.</p> <p>Expand the evidence base for collaborative efforts to create conditions that promote health and health equity.</p> <p>University of Kansas; American University of Beirut</p> <p>Global dissemination of case studies through the free, public web site, the Community Tool Box http://ctb.ku.edu</p> <p>2008-2012</p>
