Lawrence

Country:

USA

Region:

AMRO

Phone:

(1-785) 864 0533

Fax:

(1-785) 864 5281

Web Site:

<http://communityhealth.ku.edu>

Date of Designation:

15/Oct/2004

Last Redesignation:

15/Oct/2012

Expiry:

15/Oct/2016

Terms of Reference:

1. To build capacity for community health and development globally using expanded resources of the Community Tool Box
2. To use participatory evaluation methods to extend the evidence base for how communities create conditions that promote health and health equity.

Subjects:

1. Healthy Cities
2. Health promotion & education

Types of activity:

1. Information dissemination
2. Evaluation
3. Coordination of activities carried out by several institutions (e.g. other WHO collaborating centres)

WHO organization wide expected result:

6.1 - Advice and support provided to Member States to build their capacity for health promotion across all relevant programmes, and to establish effective multisectoral and multidisciplinary collaborations for promoting health and preventing or reducing major risk factors.

7.3 - Social and economic data relevant to health collected, collated and analysed on a disaggregated basis (by sex, age, ethnicity, income, and health conditions, such as disease or disability).
